

THE RARE ART OF
FOREST LIVING

3 & 4 BHK FOREST VILLAS
UTTARPARA

Forest living isn't just about being surrounded by trees
- it's a way of life where your well-being stays closely
connected with nature. Here, you live with the land, in
peaceful and meaningful ways.

Inside a vast 314-acre township, this enclave feels like
its own world - with 2.56 acres of private forest that
bring calm, privacy, and a deep sense of peace.

The forest becomes part of your everyday life, with
sunlight streaming into verandahs, the smell of rain
and wet wood in the air, and the soft hum of nature all
around. Life here unfolds in harmony - where your
home, the forest, and the self breathe as one.
